Suggested Maths Websites -

White Rose Home Learning - Maths home learning | Home learning | White Rose Education

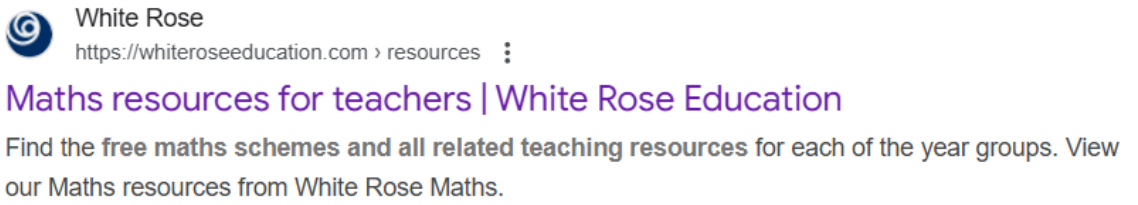

These online resources are closely linked to each of the topics covered in our maths lessons in school – information about our maths coverage for each half term can be found on the half termly parent curriculum overviews on the school website.

This online resource can also be found by...

Searching 'White Rose Maths'.

Selecting the search result.

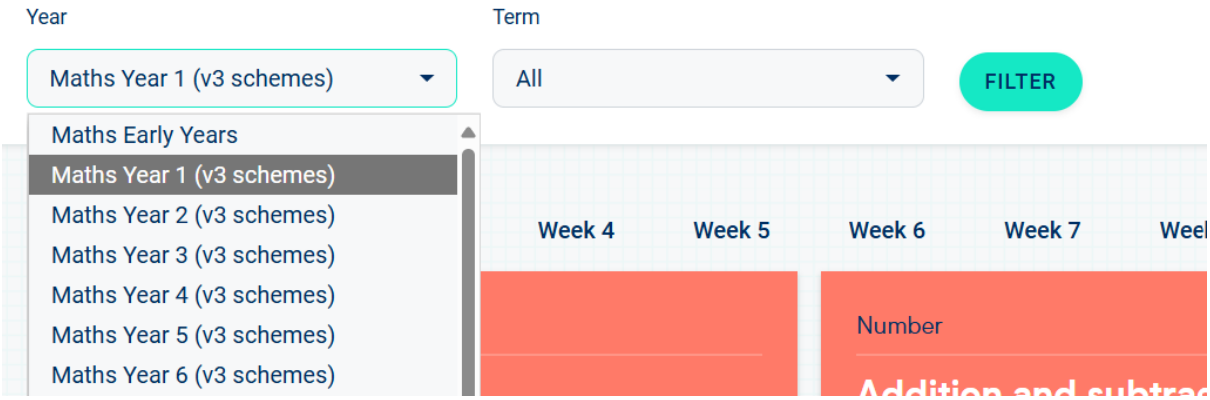

Selecting 'Parents and Pupils' from the top of the webpage.

Selecting 'Home Learning' from the dropdown menu.

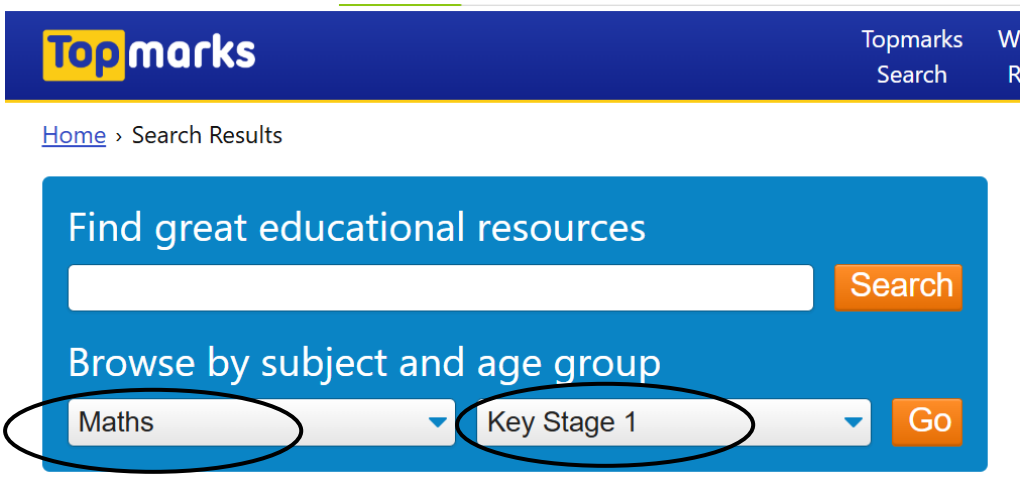

Once you have reached the home learning page, select the required year group from the dropdown menu.

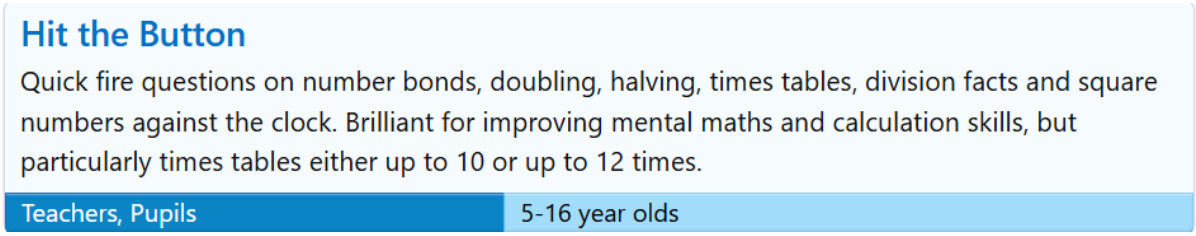

Finally, choose the topic you wish to practise with your child. There are then short teaching videos and questions for your child to work through.

Top Marks maths Topmarks: teaching resources, interactive resources, worksheets, homework, exam and revision help - Simple and fun maths games. These games are for all age ranges so ensure you select maths and the correct Key Stage.

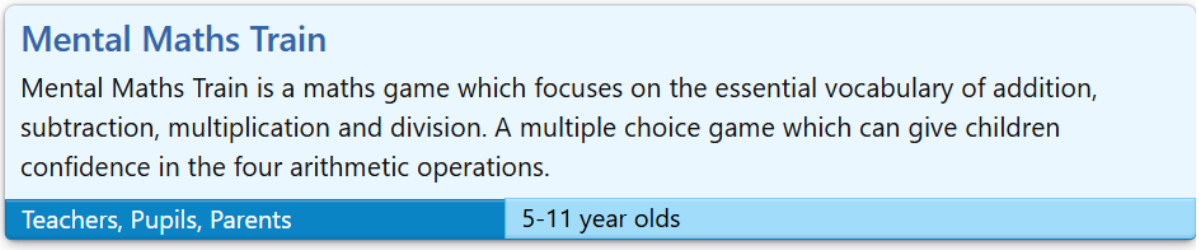

Games that children may be familiar with from in school include:

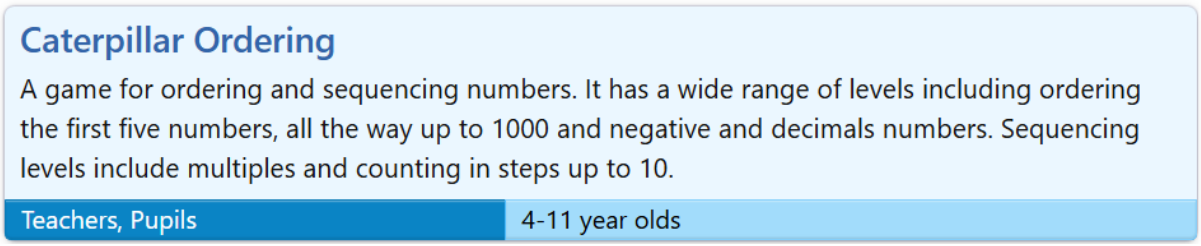

Hit the Button- great for number bonds and addition.

Mental Maths Train- great for addition and subtraction.

Caterpillar Ordering – useful for place value and sequencing numbers.

Practising number formation is also an important part of maths learning in year 1. You can find lots of great songs on YouTube and there are plenty of rhymes that can be used to help your child remember how to form numbers.
